GB\DataTranslate

Now utilize all the files you've created for past Mazak controls!

With GB\DataTranslate, you can…

…write a program for a newer generation control and extract compatible information so it can also run on your older controls

…take a file you saved in an older control, and run it in a newer control.

Machine compatibility

Mill controls:
- *Smooth, Smart, Matrix, 640M, M+, M32, M2*

Turning controls:
- *Smooth, Smart, Matrix, 640T, T+, T32, T2*

Integrex controls:
- *Smooth, Matrix, 640MT*

GB\DataTranslate gives your shop flexibility and improves productivity by allowing you to utilize whichever machine is available.
